

Four State QRP Group 4x4 Sprint 6 October 2012

This was the first annual Four State QRP Group 4x4 Sprint. It is a 4 hour 4 band sprint, hence 4x4. I was operating from the deck on my daughter and son -in-law's house in Solon Iowa, and was lucky to garner 2nd place. It was cold, about 45 deg, and windy. The setup was the ATS4, 84 ft wire up 40 ft at the far end with 3-30 ft radials, a ZM-2 tuner and LiFePO4 battery power. A buck/boost regulator was placed between the battery and the rig, fixing the rig's voltage at 12V. The picture at the right was taken by my Grandson Sam on his cell phone
