

# Skeeter Hunt

10 August 2014

Pioneer Ridge

This is a premiere QRP outing, on par with all the others, and I look forward to it again in 2015. I had 39 Skeeter to Skeeter Contacts and 4 non Skeeter ones, but I wasn't able to spell "Skeeter" for the bonus.

I was setup in a shelter house and used the MTR and ATS4, 100 foot wire up 50 feet, one 30 ft radial, a ZM-2 tuner and an LiFePO4 for battery power.

NK80, Charles Powell arrived at the site shortly after I did, Charles was a visiting physician working at our local hospital, and long time pal Steve Miller, NØSM, came out for a visit also, making it a nice day all around.
